

Trade

Do you have a business project in Bremen or Bremerhaven - but don't yet know which permits, registrations or official certificates are required?

Anyone starting the independent operation of a standing business, a branch or a dependent branch office must notify the competent authority at the same time.

The same applies if

- the business is relocated
- the object of the business is changed or expanded to include goods or services that are not customary for businesses of the type registered, or
- the business is discontinued.

Below you will find individual services on the subject in the federal state of Bremen.

If you have any questions, please get in touch with the Single Point of Contact. This is available to all companies as a contact and service point for business at WFB Wirtschaftsförderung Bremen GmbH.
