

Register collection of large electrical appliances

You can register the collection of large electrical appliances from your private household. Registration and collection takes place via the bulky waste collection service.

Competent Department

- [Die Bremer Stadtreinigung](#)

Basic information

Electrical appliances contain valuable and sometimes rare raw materials that can be recycled. You are also obliged to dispose of these old appliances separately from residual waste, as some of the pollutants they still contain may pose a risk to the environment. Bremen's municipal waste disposal service collects your large electrical appliances as bulky waste. Many retailers also take back electrical appliances in their stores.

Place your bulky waste in front of your property from 18:00 the day before - but no later than 06:00 on the actual collection day.

What counts as large electrical appliances?

Refrigerators and freezers, washing machines, tumble dryers, dishwashers, stoves, electric heaters, air conditioning units, permanently installed heating and hot water appliances, televisions, monitors, printers, electric lawnmowers, floor lamps

In addition to harmful substances such as heavy metals and CFCs, they also contain a number of recyclable materials that need to be recovered and thus recycled. If WEEE is disposed of properly, it can replace primary raw materials (and thus their costly extraction) and make a significant contribution to conserving natural resources.

Requirements

- Your large electrical appliances accumulate with a maximum volume of up to 5 m³.
- The electrical appliances come from a private household in Bremen that is connected to the municipal waste disposal system.

What documents do I need?

- Name
- Object address

Procedure

You can register the collection of large electrical appliances via bulky waste. You have various options for this:

Online

Arrange your collection date online by completing the online order form.

By telephone

You can register your bulky waste by calling the customer service of Die Bremer Stadtreinigung.

Legal bases

- [§ 20 Kreislaufwirtschaftsgesetz \(KrWG\)](#)
- [§ 11 Ortsgesetz über die Entsorgung von Abfällen in der Stadtgemeinde Bremen \(Abfallortsgesetz\)](#)
- [§ 13 Absatz 3 Elektro- und Elektronikgerätegesetz \(ElektroG\)](#)

More information

Removable used batteries must be disposed of separately.

What deadlines must be paid attention to?

There are no deadlines.

How long does it take to process

Collection takes place no later than 4 weeks after receipt of the application by the waste disposal company.

What are the costs?

Disposal and collection of bulky waste can be requested once a year at no additional cost. Further collections are possible for 78.00 euros each.
