

Registering a new motor vehicle (without changing the owner and WITHOUT taking the registration number with you)

Due to nationwide regulations, the online portal for digital vehicle registrations (iKfz) had to be deactivated on January 1, 2024. The vehicle registration office does not currently offer online services. Work is currently underway to resume digital services. In the meantime, the analog services of the vehicle registration office are available to you. We apologize for the inconvenience.

If you move or relocate to Bremen, for example, you must re-register your vehicle and can apply for a new license plate.

Basic information

The application may be made in person. A representative with written power of attorney may also be appointed.

From 01.10.2019, the new registration of a vehicle is also possible online under certain conditions. For more information on "internet-based vehicle registration", please visit the website of the Federal Ministry of Transport and Digital Infrastructure (see "i Where can I find out more?").

Note:

Since October 1, 2005, there have been new vehicle documents. These are the registration certificate Part I (old: vehicle registration document) and Part II (old: vehicle title). These have a uniform design in the European Union (EU). If a registration certificate Part II (formerly: vehicle registration document) already exists and there is still space for the entry in it, the change is made in it.

If the new registration certificates have not yet been issued, they will be issued in this context, even if another keeper entry would be possible in the old papers. A new

registration certificate Part I (formerly: vehicle registration document) will be issued in any case.

Attention:

The owner must have already registered or re-registered in Bremen.

Requirements

- no overdue fees and expenses from previous registration processes.
In the case of payment arrears, the registration authority may not register the vehicle until these have been settled.
- No motor vehicle tax arrears (including ancillary tax payments, e.g. interest, late payment surcharges).
Motor vehicle tax accounts are verified by the registration authority as part of the processing of the registration application. In the event of tax arrears, the registration authority may not register the vehicle until these have been settled.
- Written direct debit authorization for the collection of vehicle tax.

Important: This is a service under municipal jurisdiction. Therefore, you can only go to a service that is located in your place of residence.

What documents do I need?

- in case of representation with written power of attorney

Additionally: identity card or passport of the authorized person

- Registration certificate part I (formerly: vehicle registration document)
- Registration certificate part II (formerly: vehicle registration document)

If the ZB II is in the possession of a third party, it must be sent to the licensing authority. Only when the document is available to the authority can the change be made.

After completion, the document is returned to the sender.

- Direct debit authorisation for motor vehicle tax (SEPA Direct Debit Mandate)
- valid test report on a general inspection

e.g. TÜV, DEKRA, GTÜ, KÜS, GTS, FSP

- if registered to companies

additionally:

- Current and valid business registration and, if available, current and valid excerpt from the commercial register (also as a copy)
- Power of attorney, if the person authorized to dispose does not personally submit the application on site

Procedure

- An application for registration must be submitted to the registration authority. The application can also be made by a representative (e.g. car dealer) with a written power of attorney.
- If a desired license plate is desired, reservation, even before the new registration in person, in writing or by telephone and as an online service via the Internet can be made.
- By the registration of the vehicle on the vehicle owner a new Zulassungsbescheinigung part I (in former times: Fahrzeugschein) is issued. It may also be necessary to issue a registration certificate Part II (formerly: Fahrzeugbrief).
- If the vehicle was last registered in a different registration district, new license plates and, if necessary, a new fine dust sticker can be applied for.
- The insurance company is automatically informed by the registration authority about the allocation of the license plate.
