

dispose of residual waste

Residual waste is disposed of in the residual waste garbage can. Every property on which waste may accumulate must be connected to the municipal waste disposal system.

Competent Department

- [Die Bremer Stadtreinigung](#)

Basic information

The residual waste garbage cans (60 - 240 liters) are collected every 14 days. Please refer to your Bremen waste calendar for the dates. The number of regular collections included in the waste fee can be found in the fee table. Please place the garbage can on the street from 18:00 at the earliest on the day before collection, but no later than 06:00 on the day of collection.

Every property in Bremen must be equipped with a sufficiently large residual waste garbage can. Each person is required to provide 15 liters per person per week. It is possible to share waste bins, even between properties.

Procedure

- Applications must be made in writing or by telephone by the property owner. Tenants should contact their landlord.
- For private households, the size of the residual waste garbage can depends on the number of people in the household.
- For commercial enterprises and clubs, the size is determined individually depending on the industry and number of employees. This is done by the commercial customer service department of Die Bremer Stadtreinigung.

More information

This is residual waste:

- Wallpaper, animal litter, small pieces of wood, light bulbs, household items, household dishes, sanding and sawing dust, soiled paper and cardboard, soiled foil, buckets, emulsion paints, medication, diapers, vacuum cleaner bags, ashes, file folders, audio and video tapes

This is not residual waste:

- Pollutants, electrical appliances, recyclables

Tip:

If the residual waste garbage can is exceptionally too full, you can also dispose of residual waste with the Bremen bin liner. It can be purchased at the following recycling stations and in many retail outlets at a price of 7.50 euros:

- Blockland
- Blumenthal
- Burglesum
- Hohentor
- Hastedt
- Kirchhuchtingen
- Oberneuland

Residual waste can also be delivered loose to these recycling stations. Different charges apply depending on the quantity delivered, 10.00 euros per 120 liters or part thereof.

How long does it take to process

2 weeks

What are the costs?

The waste charge is based on the number of usage units on the property as well as the size and emptying frequency of the residual waste bin.
