Basic information

On the one hand, the AFZ trains young people for general administration in the following professions:

- Administrative assistant and
- Administrative inspectors in the Public Administration dual study program.

On the other hand, the AFZ coordinates training in more than 30 different recognized training occupations, e.g.

- in the field of information technology,
- in commercial, technical and industrial professions or
- in the media and medical fields.

The practical training takes place in various offices, laboratories and facilities of the Bremen public service.
